Clinical Obstetrics and Gynecology

Instructions for Authors

Manuscript Submission

Online Manuscript Submission
All manuscripts must be submitted online at http://clinobgyn.edmgr.com/.

First-time users: Please click the Register button from the menu above and enter the requested information. On successful registration, you will be sent an e-mail indicating your user name and password. Note: If you have received an e-mail from us with an assigned user ID and password, or if you are a repeat user, do not register again. Just log in. Once you have an assigned ID and password, you do not have to re-register, even if your status changes (that is, author, reviewer, or editor).

Authors: Please click the log-in button from the menu at the top of the page and log in to the system as an Author. Submit your manuscript according to the author instructions. You will be able to track the progress of your manuscript through the system. If you experience any problems, please contact Helen Powers, HPclinobgyn@aol.com, phone: 914.572.6424, fax 914.276.0541.

Ethical/Legal Considerations

Patient anonymity and informed consent: It is the author’s responsibility to ensure that a patient’s anonymity be carefully protected and to verify that any experimental investigation with human subjects reported in the manuscript was performed with informed consent and following all the guidelines for experimental investigation with human subjects required by the institution(s) with which all the authors are affiliated. Authors should mask patients’ eyes and remove patients’ names from figures unless they obtain written consent from the patients and submit written consent with the manuscript.

Conflicts of Interest
Authors must state all possible conflicts of interest in the manuscript, including financial, consultant, institutional and other relationships that might lead to bias or a conflict of interest. If there is no conflict of interest, this should also be explicitly stated as none declared. All sources of funding should be acknowledged in the manuscript. All relevant conflicts of interest and sources of funding should be included on the title page of the manuscript with the heading “Conflicts of Interest and Source of Funding:”. For example:

Conflicts of Interest and Source of Funding: A has received honoraria from Company Z. B is currently receiving a grant (#12345) from Organization Y, and is on the speaker’s bureau for Organization X – the CME organizers for Company A. For the remaining authors none were declared.

Copyright: In addition, each author must complete and submit the journal’s copyright transfer agreement, which includes a section on the disclosure of potential conflicts of interest based on the recommendations of the International Committee of Medical Journal Editors, “Uniform Requirements for Manuscripts Submitted to Biomedical Journals” (www.icmje.org/update.html).

The form is readily available on the manuscript submission home page (http://clinobgyn.edmgr.com/) and can be completed and submitted electronically.
Please note that authors may sign the copyright transfer agreement form electronically. For additional information about electronically signing this form, go to http://links.lww.com/ZUAT/A106.

Compliance with NIH and Other Research Funding Agency Accessibility Requirements
A number of research funding agencies now require or request authors to submit the post-print (the article after peer review and acceptance but not the final published article) to a repository that is accessible online by all without charge. As a service to our authors, LWW will identify to the National Library of Medicine (NLM) articles that require deposit and will transmit the post-print of an article based on research funded in whole or in part by the National Institutes of Health, Wellcome Trust, Howard Hughes Medical Institute, or other funding agencies to PubMed Central. The revised Copyright Transfer Agreement provides the mechanism.

Permissions: Authors should submit written permission from the copyright owner (usually the publisher) to use direct quotations, tables, or illustrations that have appeared in copyrighted form elsewhere, along with complete details about the source. A permission form is available http://clinobgyn.edmgr.com/. (Please note: Lippincott Williams & Wilkins is not responsible for any fees that are required for permission to reprint. Such fees are the responsibility of the author applying for the permission.)

Preparation of Manuscript
Manuscripts that do not adhere to the following instructions may be returned to the corresponding author for technical revision. Any questions regarding manuscript submission may be addressed to:

Helen Powers
Managing Editor
Phone: 914.572.6424
E-mail: HPclinobgyn@aol.com
Fax: 914.276.0541

Title page: Please include on the title page (a) complete manuscript title; (b) authors’ full names, highest academic degrees, and affiliations; (c) name and address for correspondence, including fax number, telephone number, and e-mail address; (d) address for reprints if different from that of corresponding author; and (e) all sources of support that require acknowledgment; and (f) a short title of no more than 45 characters (including spaces) for use as a running head. The title page must also include disclosure of funding received for this work from any of the following organizations: National Institutes of Health (NIH); Wellcome Trust; Howard Hughes Medical Institute (HHMI); and other(s).

Abstract: Please provide an abstract of no more than 100 words that states what was done, what was found, and what the findings mean. In addition, please provide up to 6 key words.

Text: Organize the manuscript into journal-specific main headings. Please define abbreviations at first mention in text and in each table and figure legend. If a brand name is cited, please supply the manufacturer’s name and address (city and state/country). Please acknowledge all forms of support, including pharmaceutical and industry support, in an Acknowledgments paragraph.

Abbreviations: For a list of standard abbreviations, consult the Council of Biology Editors Style Guide (available from the Council of Science Editors, 9650 Rockville Pike, Bethesda, MD 20814) or...
other standard sources. Please write out the full term for each abbreviation at its first use unless it is a standard unit of measure.

**References:** BECAUSE COG IS A CLINICAL PUBLICATION, THE EDITORS REQUEST THAT REFERENCES BE LIMITED TO A MAXIMUM OF 20. The authors are responsible for the accuracy of the references. Key the references (double-spaced) at the end of the manuscript. Cite the references in text in numerical order of appearance. Cite unpublished data, such as papers submitted but not yet accepted for publication or personal communications, in parentheses in the text. If there are more than three authors, list only the first three authors followed by et al. Refer to the *List of Journals Indexed in Index Medicus* for abbreviations of journal names or access the list at: [http://www.nlm.nih.gov/tsd/serials/lji.html](http://www.nlm.nih.gov/tsd/serials/lji.html). Sample references are given below:

**Journal article**

**Book chapter**

**Entire book**

**Software**

**Online journals**

**Database**

**World Wide Web**

**Figures**

**A) Creating Digital Artwork**
1. Learn about the publication requirements for Digital Artwork: [http://links.lww.com/ES/A42](http://links.lww.com/ES/A42)
2. Create, Scan and Save your artwork and compare your final figure to the Digital Artwork Guideline Checklist (below).
3. Upload each figure to Editorial Manager in conjunction with your manuscript text and tables.
**B) Digital Artwork Guideline Checklist**

Here are the basics to have in place before submitting your digital artwork:

- Artwork should be saved as TIFF, EPS, or MS Office (DOC, PPT, XLS) files. High resolution PDF files are also acceptable.
- Crop out any white or black space surrounding the image.
- Diagrams, drawings, graphs, and other line art must be vector or saved at a resolution of at least 1200 dpi. If created in an MS Office program, send the native (DOC, PPT, XLS) file.
- Photographs, radiographs and other halftone images must be saved at a resolution of at least 300 dpi.
- Photographs and radiographs with text must be saved as postscript or at a resolution of at least 600 dpi.
- Each figure must be saved and submitted as a separate file. Figures should not be embedded in the manuscript text file.

**Remember:**

- Cite figures consecutively in your manuscript.
- Number figures in the figure legend in the order in which they are discussed.
- Upload figures consecutively to the Editorial Manager web site and enter figure numbers consecutively in the Description field when uploading the files.

**NOTE:** *Color figures: The journal does not publish color figures. All figures must be submitted as black and white.*

**Figure legends:** Legends must be provided for all figures. They should be brief and specific, and they should appear on a separate manuscript page after the references. Use scale markers in the image for electron micrographs and indicate the type of stain used.

**Tables:** Please create tables using the table creating and editing feature of your word processing software (e.g., Word, WordPerfect). Do not use Excel or comparable spreadsheet programs. Group all tables in a separate file. Cite tables consecutively in the text. Key each table on a separate sheet and include the table title, appropriate column heads, and explanatory legends (including definitions of any abbreviations used). Please do not embed tables within the body of the manuscript. The tables should be self-explanatory and supplement, rather than duplicate, the material in the text.

**Style:** Pattern manuscript style after the *American Medical Association Manual of Style* (9th edition). *Stedman’s Medical Dictionary* (27th edition) and *Merriam Webster’s Collegiate Dictionary* (10th edition) should be used as standard references. Refer to drugs and therapeutic agents by their accepted generic or chemical names. Do not abbreviate them. Use code numbers only when a generic name is not yet available. In that case, supply the chemical name and a figure showing the chemical structure of the drug. Capitalize the trade names of drugs and place them in parentheses after the generic names. To comply with trademark law, include the name and location (city and state in USA; city and country outside USA) of the manufacturer of any drug, supply, or equipment mentioned in the manuscript. Use the metric system to express units of measure and degrees Celsius to express temperatures. Use SI units rather than conventional units.
After Acceptance

Page proofs and corrections: Corresponding authors will receive electronic page proofs before publication. Portable document format (PDF) files of the typeset pages and support documents (e.g., reprint order form) will be sent to the corresponding author by e-mail. Complete instructions will be provided with the e-mail for downloading and printing the files and for faxing the corrected pages to the publisher. It is the author’s responsibility to ensure that there are no errors in the proofs. Changes that have been made to make the chapter conform to Journal style will be allowed to stand if they do not alter the authors’ meaning. Authors may be charged for alterations to the proofs beyond those required to correct errors or to answer queries. Proofs should be checked carefully and returned within 24 to 48 hours of receipt, as requested in the cover letter accompanying the page proofs.

Reprints: Authors will receive a reprint order form and a price list with the page proofs. Reprint requests should be faxed to the publisher with the corrected proofs, if possible. Reprints are normally shipped 6 to 8 weeks after publication of the issue in which the item appears. Contact the Reprints Department, Lippincott Williams & Wilkins, 351 W. Camden Street, Baltimore, MD 21201 (reprints@lww.com) with any questions.
Manuscript Checklist:
☐ Copyright transfer forms signed by all authors
☐ Title page
☐ Abstract and key words
☐ References double-spaced in AMA style
☐ Corresponding author designated (on title page)
☐ E-mail address of corresponding author included on title page
☐ Disclosure of funding information included on title page
☐ Permission to reproduce copyrighted materials or signed patient consent forms
☐ Acknowledgments listed for grants and technical support
☐ Manuscript Authorship Responsibility and Assignment of Copyright form signed by each author
☐ Author Information Form
