Clinical Nurse Specialist: Your Clinical Innovation Expert
Annual Conference

March 10-12, 2011
Baltimore Marriott Waterfront Hotel, Baltimore, MD
Innovation is the watchword for the 2011 conference. The conference will highlight novel approaches to CNS practice within the three spheres of influence: the client sphere (individual, family, community), the nursing sphere (nurses, nursing practice), and the organization/system sphere.

**Schedule Highlights**

**Pre-Conference Sessions:**

**Pre-Conference Registration Begins on Wednesday, March 9 at 7:30 am**

**Maximize Your Member Benefit: Bring a World of Evidence to the Bedside with JBI Connect+, 8:00 am - 12:00 pm**

In this preconference you will learn how to use all of the JBI Connect+ resources and tools. All members of NACNS are also members of the Joanna Briggs Institute. Maximize this member benefit by learning how to search all of the evidence sources and use tools that will help you implement evidence and change practice.

**Writing for Publication, 1:00 pm - 5:00 pm**

The Writing for Publication workshop will provide knowledge about the publishing process, formatting expectations of publishers, and writing skills. Workshop information will assist authors, especially novice or those with limited peer-reviewed journal publication experience, in choosing the best journal, following rules of writing, and submitting a manuscript to a journal. Further, participants will have time to practice skills with seasoned authors who are also journal reviewers and editors. If you have a partially or fully written manuscript that you would like presenters to review during the practice session, bring it with you for discussion!

**General Session**

**Friday, March 11**

8:45 am – 10:15 am

**Nurses and Consumers: Partnership for the Future**

Susan Reinhard, PhD, RN, FAAN

**Opening Keynote Address**

Thursday, March 10

8:10 am – 9:30 am

**Articulating the Knowledge Embedded in CNS Practice**

CNS: Your Clinical Innovation Expert

Clinical Nurse Specialists (CNSs) work to move clinical practice forward by leveraging technological advances, incorporating cutting-edge research, and building on evidence-based practice to create new models of care for improving the health of individuals, families, communities, and health care organizations. As clinical innovation experts, CNSs are well positioned to influence practice, education, and research.

About Baltimore

Baltimore - the colorful, diverse destination that is Maryland's largest city and economic hub, is known for its beautiful harbor; quirky, distinct neighborhoods; unique museums and the world-renowned Johns Hopkins Hospital to the east and the University of Maryland Medical Center to the west.
