## OBJECTIVES

The 9th Annual Contemporary Issues in Trauma Conference is a multidisciplinary conference designed to provide trauma education to all levels of health care providers. This conference will address the latest topics in trauma care and is designed to examine current literature and best practices in the field of trauma.

This multidisciplinary conference is intended for physicians, physician assistants, nurse practitioners, nurses, nurse anesthetists, pre-hospital providers, allied health professionals and professional students.

## CONFERENCE OBJECTIVES:

- Review evidence-based data supporting specific management paradigms of penetrating trauma.
- Identify an opthalmic emergency.
- Discuss the current surgical trends in the management of patients with gunshot wounds.
- Describe the management of the pediatric trauma patient during inter-hospital transport.
- Review diagnostic and management options of blunt neck trauma and laryngotracheal injury.
- Discuss the current challenges in healthcare systems and IT.
- Review the pharmacology and role of newer anticoagulants in the treatment of pulmonary embolism.
- Discuss clinical considerations on management of patients under the influence, particularly intoxicated patients in the setting of trauma.

## AGENDA

### 7:00-7:45am

**Registration**
