Chicago Comprehensive Hip Fellowship
2018-19

Focusing on Hip Arthroscopy and Joint Preservation
Fellows will be trained in all aspects of hip surgery, providing a unique foundation for a future comprehensive hip surgeon. Training will focus heavily on hip arthroscopy and open hip preservation. Also included are peri-acetabular osteotomy, Birmingham hip resurfacing, and hip arthroplasty (direct anterior, posterior, and Mako robotic-assisted). The fellowship offers a strong research environment based in a collaborative, learning environment. This highly specialized fellowship prepares trainees for a focused niche practice in Hip Preservation. It is ideally suited for trainees graduating from a sports medicine or joint reconstruction fellowship, who wish to obtain further training in a second fellowship. However, application is also open to graduating residents.

Application: Please send cover letter, CV, and three letters of recommendation to Benjamin G. Domb, M.D.

McFarland Clinic PC

Extraordinary Care, Every Day

The CORE Institute is seeking highly qualified orthopedic surgeons who wish to be part of a dynamic and integrated team dedicated to delivering the best in musculoskeletal healthcare in our Arizona and Michigan markets. We are currently seeking individuals for the following subspecialties:

- Adult Reconstruction
- Orthopedic Trauma
- Hand and Upper Extremity
- Shoulder and Elbow
- Spine Surgery
- Foot and Ankle

The ideal candidates will have a demonstrated track record of excellence in clinical care, integration with clinical quality standards and fostering a high level of teamwork with colleagues.

The CORE Institute (The Center for Orthopedic Research and Education) was founded to fulfill a vision of orthopedic excellence encompassing the entire spectrum of orthopedic sciences. Consistent with our mission, The CORE Institute delivers the highest level of musculoskeletal healthcare, built upon a foundation of pioneering research, academics, community service, and a passion for excellence in patient care and outcomes. The CORE Institute has delivered orthopedic care through over a quarter of a million patient visits annually and sees patients from all fifty states and around the world. The CORE Institute has grown to over 170 providers and is home to several research facilities. Our documented, excellent patient outcomes are ensured by a unique and dedicated Quality Department, which sets benchmarks in orthopedic care through evidence-based medicine and standardized protocols managed through a custom, proprietary IT infrastructure. The organization continues to be a leader in payor-reform initiatives and at the forefront of systems-based quality initiatives that drive value across health care organizations. The CORE Institute’s team of clinicians provides specialized care in the areas of surgical, non-surgical and rehabilitative medicine, across the continuum of musculoskeletal care.

Interested candidates should contact: Jason Scalise, MD
Vice Chair and Director of National Physician Integration

University of Pittsburgh Medical Center  
Department of Orthopaedics  
Shoulder and Elbow Fellowship

Drs. Schmidt and Sotereanos are pleased to announce that UPMC, Department of Orthopaedic Surgery, will offer one American Shoulder and Elbow Surgeons (ASES) approved fellowship position for the 2019-2020 match cycle.

The fellowship is designed to provide a thorough understanding of shoulder and elbow anatomy and pathologic conditions and teach the latest techniques in open, arthroscopic, and endoscopic surgery. The fellow will share rotation time at UPMC with Drs. Schmidt and Sotereanos and during this period is projected to be involved in over 500 cases. The case load will include innovative surgeries like arthroscopic muscle transfers for irreparable rotator cuff tears, revision total shoulder arthroplasties, arthroscopic elbow releases, and endoscopic distal biceps repairs.

The educational curriculum consists of weekly shoulder and elbow conferences, bi-weekly cadaveric wet laboratories (scope equipment), and monthly journal clubs. The curriculum is designed to provide the fellow the opportunity to develop a solid knowledge base and skill set on which to start his/her career.

The wet lab is integrated in the same space as a state of the art engineering facility, which houses both our shoulder and elbow simulators. The fellow will be strongly encouraged to participate in ongoing cadaveric/mechanical/radiographic studies investigating the distal biceps tendon, rotator cable, reverse shoulder arthroplasty, etc. Integration of the shoulder fellow with graduate engineering students and radiologists will help foster their understanding of the importance and power of cooperative interdisciplinary research.

Individuals who have completed an accredited training program in orthopedic surgery and are interested in additional training in the surgical treatment of shoulder and elbow are eligible to apply. Must be eligible for and maintain an unrestricted Pennsylvania medical license.

All applicants must apply through the SF match. Information on the SF Match – Orthopaedic Shoulder & Elbow Match can be found on the ASES website under Fellowships and at: [http://www.ases-assn.org/?p=physic-fellowships&fellowship_id=41](http://www.ases-assn.org/?p=physic-fellowships&fellowship_id=41)

UCSF Fresno Hand Orthopaedic Surgeon Opportunity

The University of California San Francisco-Fresno Orthopaedic Surgery Residency Program and Central California Faculty Medical Group (CCFMG) are currently recruiting a Hand Fellowship trained Orthopaedic Surgeon. An ACGME accredited Orthopaedic Surgery Residency Program is currently in its seventh year. Applicants must have completed an Orthopaedic Surgery Residency program, must have completed a year of Fellowship training in Hand Surgery, must be board certified or board eligible in Orthopaedic Surgery, have excellent clinical and procedural skills, be willing to actively participate in medical education, and preferably have experience and interest in clinical research. Faculty appointment with UCSF will commensurate with the applicant's background and accomplishments.

The program is located in Fresno, California, where residents enjoy a quality of life uniquely Californian, yet surprisingly affordable. Limitless recreational opportunities and spectacular scenery is all accessible in a community with abundant affordable housing and outstanding public schools. While there is much to see and do in Fresno, the city is ideally located for fast, convenient getaways to the majestic Sierra (just 90 minutes away) as well as the scenic Central Coast, just two and one-half hours away. Fresno is the only major city in the country with close proximity to three national parks, including renowned Yosemite National Park.

Please apply with CV online at https://aprecruit.ucsf.edu/apply/JPF01057

UC San Francisco seeks candidates whose experience, teaching, research, or community service has prepared them to contribute to our commitment to diversity and excellence.

The University of California is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, age or protected veteran status.

Houston Methodist Orthopedics & Sports Medicine

Opportunity for Foot & Ankle Orthopedic Surgeon

Houston Methodist is seeking a BC/BE Foot & Ankle Orthopedic Surgeon. We offer a competitive salary and benefits package, commensurate with experience and training.

Join a multidisciplinary team of physicians, with a primary academic affiliation with Weill Cornell Medicine. Academic appointment is available. We have fully accredited orthopedic residency and fellowship programs in sports, spine and joint reconstruction. We are committed to innovative orthopedic research, ensuring our continued leadership in the diagnosis and treatment of orthopedic conditions.

Houston Methodist Hospital is ranked as one of the top 25 best hospitals for Orthopedics by U.S. News & World Report, and is consistently ranked by the publication as one of America's “Best Hospitals,” ranking No. 1 in Texas. The hospital has also been named one of America's best large employers by Forbes magazine.

Interested candidates, please email your CV to Kevin Varner, MD, chair, at kevarner@houstonmethodist.org or call 713.441.3150.
Comprehensive Minimally Invasive Spine Surgery Fellowship

Neel Anand, MD  
Spine Center, Cedars-Sinai Medical Center  
Los Angeles, CA  
Tel: 310 423 9209  
neel.anand@cshs.org

The minimally invasive spine surgery fellowship program is a 6-month or 1-year fellowship opportunity. The fellowship will be at Cedars-Sinai Medical Center. This fellowship program is designed for spine surgeons whose desire is to learn and adopt minimally invasive spine surgery as the foundation of their practice.

The fellow will learn advanced treatment options for thoracic and lumbar disorders including; tubular microdecompression/microdiscectomy, lateral lumbar interbody fusion (OLIF/DLIF/ XLIF), MIS ALIF, MIS tubular TLIF, PLIF, MIS percutaneous pedicle screws, lumbar ADR and other non-fusion stabilization techniques. The fellow will also learn advanced treatment options for cervical disorders including; MIS posterior cervical decompression (foraminotomy, laminectomy, laminoplasty), ACDF, cervical ADR & PSF. Most importantly, considerable emphasis will be placed on getting an exclusive experience into the management and execution of a systematic protocol for the Circumferential MIS correction of Spinal Deformity.

The fellowship will focus on the most effective and advanced minimally invasive treatment options for correction of spinal deformity. Emphasis will be placed on selecting the least invasive treatment option to provide the best patient outcome. Applicants must be Board Eligible/Certified. An abstract and paper ready for publication is expected prior to the end of the fellowship. An annual stipend of $70,000 plus benefits will be provided. More information may be found at: www.anandspinegroup.com.

Academic Orthopaedic Hand Surgeon

The University Of Kentucky College Of Medicine, Department of Orthopaedic Surgery is actively recruiting a fellowship trained orthopaedic hand surgeon. As the region’s largest level I trauma center (pediatric and adult), UK HealthCare serves the overall medical needs of more than 3 million people and has grown to rank above the 75th percentile of all academic medical centers.

The continued increase in demand has created the opportunity to add an additional full time clinical faculty member to help care for this population. In total, the department provides all areas of orthopaedic sub-specialty care from our more than 30 faculty members to deliver over 55,000 ambulatory visits and more than 6,500 O.R. cases annually. For more information visit http://ukhealthcare.uky.edu/Ortho/.

Please submit letter of interest and curriculum vitae to:  
Kevin Caudill, Department Administrator  
Kevin.caudill@uky.edu

The University of Kentucky is an equal opportunity/Affirmative Action employer and complies with the Americans with Disabilities Act of 1990. Females, racial minorities, and individuals with disabilities are encouraged to apply. Upon offer of employment, successful applicants for certain positions must pass a pre-employment drug screen and undergo a national background check as required by University of Kentucky Human Resources.

The Berkshires—Western Massachusetts ORTHOPAEDIC SURGERY OPPORTUNITY

JOIN THE HEALTHCARE TEAM AT BERKSHIRE HEALTH SYSTEMS!

Berkshire Health Systems is seeking a BC/BE Orthopaedic (Generalist or Foot and Ankle) to join their newly established hospital based practice. This is an exciting opportunity to work with a dynamic and growing team of providers. The practice is located in North Adams, MA and will provide comprehensive orthopaedic surgical services at Berkshire Medical Center in Pittsfield, MA in addition to outpatient clinical services in a new state of the art facility.

Berkshire Medical Center, BHS’s 302-bed community teaching hospital, is a major teaching affiliate of the University of Massachusetts Medical School. With the latest technology and a system-wide electronic health record, BHS is providing the kind of healthcare most commonly found in large metropolitan centers.

We understand the importance of balancing work with a healthy personal lifestyle. Located just 2½ hours from Boston and New York City, the Berkshires offers small town New England charm and the endless cultural opportunities of a big city. With excellent public and private schools, world renowned music, art, theater, and museums, as well as year round recreational activities from skiing to kayaking, this is an ideal family location.

This is a great opportunity to practice in a beautiful and culturally rich area while being affiliated with a health system with award winning programs, nationally recognized physicians, and world class technology.

Berkshire Health Systems offers a competitive salary and benefits package, including relocation assistance. Interested candidates are invited to contact:

Liz Mahan, Berkshire Health Systems
725 North Street, Pittsfield, MA 01201, Phone (413) 395-7866

Sports and Shoulder Fellowship open position for August 2018, James P. Tasto MD, Program Director
San Diego Arthroscopy and Sports Medicine fellowship currently has an open position for the 2018-19 academic year, beginning August 2018. This fellowship strives to teach the surgical indications and techniques for a wide variety of arthroscopic procedures. There is a significant exposure to reconstruction of the shoulder to include total and reverse arthroplasty. The program enhances knowledge of the care for the injured athlete as well as the general orthopaedic patient. The surgical experience will emphasize arthroscopic and arthroscopically-assisted shoulder, knee, ankle, elbow, and hip procedures. Each fellow will participate in approximately 500 operative cases and 800 procedures per year. There are opportunities for teaching residents and medical students within the context of the university affiliation. The fellow will gain on-field experience through involvement as the team physician for area high schools and colleges as well as professional and Olympic teams. The required research projects are facilitated through access to basic science labs as well as an arthroscopic lab and dissection materials.

For further information please visit our website at www.sportsfellows.com or contact Mari Heerlyn at mari@sdsm.net or Renee Hardesty at reneeh@sdsm.net

Hartford Orthopedic Surgeons, P.C. has a unique opportunity for an ambitious Orthopedic Surgeon to join a one-of-a-kind practice in central Connecticut.

We are a four-surgeon practice seeking a joint surgeon to join our growing group. We also employ six P.A.s to assist with clinical and surgical duties, as well as management of our urgent care centers. You will be partnering with four experienced surgeons with an excellent reputation in the greater Hartford area, and throughout Connecticut, in a highly collegial work atmosphere. Our physicians’ areas of expertise include, upper extremity, sports medicine, joint replacement and spine.

A successful candidate will be busy with a mix of joint and general orthopedic patients in one of our three offices. Currently, two of our offices include urgent care walk-in centers.

You will have an opportunity to work at the Connecticut Joint Replacement Institute, a state-of-the-art adult reconstructive surgery center, co-founded by our own joint surgeon, Robert W. McAllister, MD.

Interested candidates should contact:
Donna Rizzo, CEO, phone 860-510-1105
