

[CME Instructions for Ophthalmic Plastic and Reconstructive Surgery](#)

Wolters-Kluwer and Ophthalmic Plastic and Reconstructive Surgery are undertaking a pilot program to provide CME credit to readers.

Articles will be selected by the Editor-in-Chief, Jonathan Dutton, MD, PhD.

Program highlights:

- Articles will be available online at www.op-rs.com
- Participants will be asked to answer 4 to 5 test questions
- A score of at least 70% will be required to earn 1 CME credit for each article
- Readers will be able to retake the test as often as necessary to achieve the 70% goal
- The CME certificate will be available immediately to download and print

Click on the following link to bring you to the CME activities for OPRS. ***You must register as your current user credentials are not transferrable to the CME site. Please click on the Join now button located at***

Actions

- Clicking start will bring you directly to the article PDF where you can start reading in a separate PDF tab. T
- You can return to the platform when you are finished reading by clicking back to the CME platform in your browser.
- You will then select the test tab (notice you will not be able to click the certificate tab until you have successfully completed the test and finished an evaluation for the activity.)
- Once you have passed the test the certificate button will become dark blue and you select it to download your PDF certificate. Users can come back to this page at any time to print the certificate again and again.
