

## **CALL FOR ECIP TRAVEL AWARD APPLICATIONS**

The 25th World Congress of Psychiatric Genetics (WCPG), themed "*Genes in Context: Cells, Epistasis and Epigenetics, Tissues and Circuits, and Our Environment*," is sure to draw scientists from all over the world to participate in the five-day conference to share expertise, research findings and personal experiences with the goal of improving the quality of life for those living with psychiatric disorders.

WCPG is now accepting applications for Early Career Investigator (ECIP) Travel Awards. Early career investigator is an individual who is an undergraduate student, graduate student, medical student, post-doctoral student, or less than five years out of a doctoral program in a field relevant to psychiatric genetics. Individuals will need to submit an ECIP application along with a scientific session abstract, such as oral, poster or symposia presentation submission. Only one application will be accepted per person. Only individuals who have not received a travel award for WCPG in the past four years qualify for the award in 2017.

***WCPG is especially interested in alcohol-related submissions for travel awards. Abstracts relevant to this scientific field are highly encouraged to be submitted by Early Career Investigators.***

**Submission Deadline:  
June 12, 2017**
